Surety Bonds: The New-Age Financial Instrument Powering India's Business Growth

INDIA'S infrastructure and business landscape is expanding rapidly, with thousands of contractors, EPC companies, manufacturers and MSMEs participating in large government and private-sector projects. One financial instrument gaining increasing importance in this ecosystem is the Surety Bond—a modern alternative to traditional bank guarantees. A Surety Bond is an insurance-backed guarantee issued on behalf of a contractor or business in favour of a project owner or beneficiary. It provides financial assurance that contractual obligations will be fulfilled, while offering businesses an opportunity to optimise their working capital and banking limits.

Why Businesses Are Looking Beyond Bank Guarantees

Bank guarantees have traditionally been an integral part of tenders and contracts. However, they can consume sanctioned banking limits and, in some cases, require substantial collateral or margin. For a growing business executing multiple projects, this can restrict the availability of funds for day-to-day operations, procurement and expansion. Surety Bonds offer an alternative approach. Subject to underwriting and eligibility, businesses can obtain contractual guarantees through insurance companies, potentially allowing them to preserve valuable banking capacity. The opportunity is particularly relevant for infrastructure, construction, EPC, roads, railways, power, defence, manufacturing and government contractors.

Enter Indus Hub's SuretyBondHub

Recognising the growing need for accessible and efficient Surety Bond solutions, Indus Hub has developed SuretyBondHub—its specialised Surety Bond platform for businesses. SuretyBondHub aims to simplify the journey from requirement to issuance by helping businesses understand the appropriate bond structure, prepare documentation, evaluate available options and connect with suitable insurance partners. The platform can facilitate solutions across various requirements, including Bid Bonds, Performance Bonds, Advance Payment Bonds, Retention Bonds, Security/Retention Guarantee Bonds and Warranty Bonds, depending on the project and contractual requirement. For businesses, the value goes beyond simply arranging a bond. It is about creating a more efficient financial strategy around project execution.

Making Surety Bonds More Accessible

The Surety Bond process involves detailed underwriting. Financial strength, project experience, existing obligations, tender conditions and other relevant parameters may be evaluated. Typically, businesses may be required to submit documents such as audited financial statements, provisional financials, credit rating information, tender documents, bank sanction letters, project details and the Surety Bond proposal. SuretyBondHub brings these requirements into a structured process, helping businesses navigate the documentation and underwriting journey more efficiently.

Supporting India's Next Growth Cycle

With India investing heavily in infrastructure, urban development, transportation, energy, defence and industrial projects, the requirement for performance security will continue to rise. The emergence of Surety Bonds can provide businesses with another tool to participate in larger opportunities while managing their financial resources more effectively.

Indus Hub's SuretyBondHub represents a step towards making Surety Bonds simpler, more accessible and business-friendly. The future of project finance is not just about securing contracts—it is about securing them without unnecessarily blocking the capital required to execute them.

SuretyBondHub by Indus Hub — Secure the Contract. Preserve the Capital. Accelerate Growth.

12.	Summary of reasons for recommendation (IDC may also invite attention to any other place, e.g. company's website, whether its detailed recommendations along with written advice of the independent adviser, if any, can be seen by the shareholders)	The members of the IDC have considered the following reasons provided by the Acquirer in the IPA for making recommendations: a) The proposed delisting would enable the members of the Promoter Group to obtain full ownership of the Company, which in turn will provide enhanced operational flexibility. As the Company will no longer remain listed, there will be reduction in dedicated management time to comply with the requirements associated with continued listing of equity shares, which can be refocussed to its business; b) The delisting proposal will enhance the Company's operational, financial and strategic flexibility including but not limited to corporate restructurings, acquisitions, exploring new financing structures, including financial support from the Promoter Group; c) The proposed delisting will result in reduction of the ongoing substantial compliance costs which includes the costs associated with listing of equity shares such as annual listing fee and fees payable to share transfer agents, expenses towards shareholders' servicing and such other expenses required to be incurred as per the applicable securities law; d) The shares of the Company are infrequently traded on the stock exchange. The delisting proposal is in the interest of the Public Shareholders as it will provide them an opportunity to exit from the Company at a price determined in accordance with the Delisting Regulations, providing immediate liquidity and uncertainty associated with infrequently traded shares. Based on the review of IPA, DPA and LOF issued by the Manager to the Delisting Offer on behalf of the Acquirer, Due Diligence Report of the Peer Review Company Secretary and the above reasons for delisting, the members of IDC are of the opinion that the Delisting Offer is fair and reasonable and in the interest of the Public Shareholders of the Company. Besides other factors, the members of the IDC specially took note of the fact that the Delisting Offer will provide the Public Shareholders an opportunity to realize immediately a certain value for their share at a time of uncertainty associated with infrequently traded shares. IDC recommends the public shareholders to bid their shares at their preferred price in reverse book building as the Floor Price announced by the Promoter Acquirer is only indicative. The IDC, however, suggests that the Public Shareholders of the Company should independently evaluate the Delisting Offer and take informed decision in respect of the Delisting Offer. This statement of recommendation will be available on the website of the Company at www.avadhrail.com.
13.	Disclosure of the voting pattern	The recommendations were unanimously approved by the members of IDC.
